

Fleece Blanket Instructions

1. You will need two pieces of fleece, (two yards each piece) a square cardboard pattern, masking tape, and scissors.
2. Use the cardboard pattern to cut a 6.5 inch square out of each corner of the fabric.
3. (Save and return the squares – we'll use them later to make eye glass cases)
4. Use masking tape to mark a straight line between the cut corners.
5. Cut about one inch wide fringe along edge...cutting in as far as tape.
6. Tie knot to each piece of fringe, as close to the inside edge as possible.
7. (Remove tape.)

6-1/2 inch Square (should print to scale)

Note:

Before starting the above directions, lay top and bottom pieces on each other with right sides showing. Trim any uneven areas so each piece is the same size.
